Abstract

The Palestinian case is considered as one of the most significant and intricate issues that the world have ever witnessed. Since the Othman era, which was characterized as being in the state of weakness, feebleness, and disarranged; the greediness of many Western countries as well as many Zionist-Jewish organizations came out to dominate and takeover Palestine along with the Arabic World. The emigration and exodus of Jewish from many European countries have been begun to settle in Palestine, taking advantage of the impotence and powerlessness of the Othman Country despite of its objection to establish a home country for Jewish in Palestine.

Owing to this weakness and impotence, the Arab world had fallen under colonialism; consequently, The Palestinian territories became one of its targets due to its religious, historical and geographical importance. At the beginning of the last century, England announced its mandate over Palestine, which consolidated the concept of the Zionist Organization to achieve its conspiracy in expropriating and establishing its Jewish Country in Palestine through subjugating it as well as its people to The Zionist-Imperialistic to dominate the Arabic World and the whole area as well.

During the British mandate, the Palestinian people rebelled against the British policies in Palestine, by executing set-ins, strikes, and demonstrations because of the immigration of Jewish to the country which accompanied by the departure of the British Occupation Forces as well as the policy of providing the Jewish families with full protection. Moreover, the British Government gave the Zionist Gangsters the opportunity to enroll in the British Army to provide them the drills and armaments. Although the immigration of Jewish augmented extensively.

This resulted in establishing a homeland for Jewish People in Palestine on the account of Palestinian people, expelling them from their lands to be displaced to Arab countries to live the life of asylum and Diaspora. All Arab countries were disable to stand in front of the Zionistic Plan which targeted Palestine and the loss of the Palestinian National Identity.

Many of the National Work Factions emerged to the surface to stand in from of the Zionistic Plan, which has been reviewed in regard of their establishment, development, structure programs and their role in the Palestinian national struggle and their conservation of the Palestinian National Authority, whether they are Patriotism, National or Islamic, as well as shed light on The Palestinian Popular

Struggle Front as a model. However, the issue of this research that the reason behind the emergence of these National Fraction has not achieved yet.

Through focusing on The Palestinian Popular Struggle Front, as one of the national work factions, concerning its contribution to the national struggle, its establishment and the circumstances surrounding its inception, development, and its expansion on different areas - politically, organizational, military, media, and financial. Its relation with the other national factions, Arabic states as well as parties; This study addresses the areas that (PPSF) has been living by addressing its struggle military, political, organizational, media, as well as public and trade unions.

The concluding section of this research includes the basic key-notes and recommendations regarding both the Palestinian internal situation and the Palestinian Popular Struggle Front - PPSF.

The importance of this research on demonstrating the keys periods of the National Struggle and the circumstances surrounded their emergence and their procession on the National Work Fractions as well, to take lessons and identifying the weakness spots of these fractions to rectify their performance. In addition, the importance of this study lies on addressing in details the emergence and development of the Palestinian Popular Struggle Front – PPSF as one of the National Work Fractions, regarding its ideology, policy and organizational structure as well as the role it has played in the various levels of the national struggle. This research constitutes a new scientific addition to the library and assisting researches as this topic has been overlooked in studies and researches.

On the Palestinian level, the research has emphasized on the national unity as well as using dialogue in solving all the internal differences and preserving the Palestinian Liberation Organization - PLO as it is the sole legitimate representative for the Palestinian People to enhance and advance the Palestinian situation to achieve the national objectives.

In this research, the historical and analytical method has been applied as a scientific method as well as employing the interview method as one of the scientific research tools. This research has been spatially to the historical Palestine, Arab nations and foreign nation where Palestinian people has expelled and displaced to. As to the temporal limitation, this research addresses the period between 1964 to 2009.
