## **Self Concept of Athletic Teams Members of Al-Quds University and its Relation of their Achievement Motivation**

### **Abstract**

The study aimed at knowing the athletic achievement motivation and its relationship with self concept among athletic team's players at Al-Quds University and the effects of the following variables: sex, major, educational level and major game of the student.

The study problem was limited to answering the following main questions: What is the level of self concept of the athletic team members at Al-Quds University? Is there a significant correlation between self concept and the level of achievement motivation among the team's members at Al-Quds University? To verify this, the researcher conducted her research using the descriptive –survey- method on a population of (130) team members.

The researcher used two instruments one for self concept, prepared by Sawalhah (1990) the other for athletic achievement motivation, prepared by Willis (1998). Results showed a moderate degree of self concept of the team members and also a moderate degree of achievement motivation, success motivation was higher than that of failure avoidance.

Results also showed no significant relationship (at  $\alpha \leq 0.05$ ) between self concept and the level of achievement motivation among members of the athletic teams at Al-Quds University

برامج الدراسات العليا

التاريخ: 2011/5/21  
الرقم: ك ع ت / 11/01/173

حضرة السادة دائرة شؤون الطلبة المحترمين ،،

الموضوع: تسهيل مهمة

تحية طيبة وبعد ،،

تقوم الطالبة هيفاء جمهور ورقمها الجامعي (20911927) بدراسة عنونها:

"مفهوم الذات لدى لاعبي المنتخب الرياضي في جامعة القدس وعلاقته بدافعية الإنجاز الرياضي"

لذا يرجى من حضرتكم تسهيل مهمة الطالبة المذكورة أعلاه والتعاون معها على تطبيق الدراسة خلال الفصل الثاني الحالي 2011/2010.

مع الاحترام،،

كلية العلوم التربوية  
Faculty of Educational Sciences
