

The Degree of Using the (K.W.L) strategy by Teachers of English in the High Primary Stage (7-9) in government School in Bethlehem District .

Prepared by: Wafa Dauod Moqbel Mufreh

Supervised by: Dr. Buad Alkhales

Abstract

This study aimed at investigating the degree of using English language teachers the (K.W.L) strategy in the high Primary Stage (7-9) in Bethlehem District according to gender, academic qualifications, specialization and years of experience from their perspective in the academic year 2018/2019.

The researcher has used the descriptive method to achieve the objectives of the study.

The population of the study consisted of all English language teachers at the governmental high Primary Stage schools in Bethlehem District in the academic year 2019. The total number of female and male teachers was (304).

The researcher used the stratified random Sampling to choose her sample which was (106): (54) male teachers and (52) female teachers.

The researcher designed three tools to collect the data of the study which were a questionnaire to measure the degree of using English language teachers the (K.W.L) strategy in the high primary stage in Bethlehem District, an observation model to measure the degree of using the (K.W.L) strategy and an interview with (20) male and female teachers, and it consist from six questions

The results of the questionnaire showed that the degree of using English language teachers the (K.W.L) strategy in the high Primary Stage in Bethlehem District was high, and there are no statistical differences towards the use of (K.W.L) according to gender, academic qualifications, specialization and years of experience . While the results of the observation model showed that the degree of using English language teachers the (K.W.L) strategy in the high Primary Stage in Bethlehem District was low except the daily behaviors . and the result of interview showed that (18) from(20) teachers not know the strategy and just one teacher know and applied its and one know and not applied its.

The study recommended that the necessity of using the (K.W.L) strategy by English language teachers in the High Primary Stage in Bethlehem District beside do extra studies about (K.W.L).
